

# QL7100

**Give the Best Hotel Door Lock Solution  
and Best Service!  
Make All Customers have Perfect  
Experience.**

Safe Handle

Notification

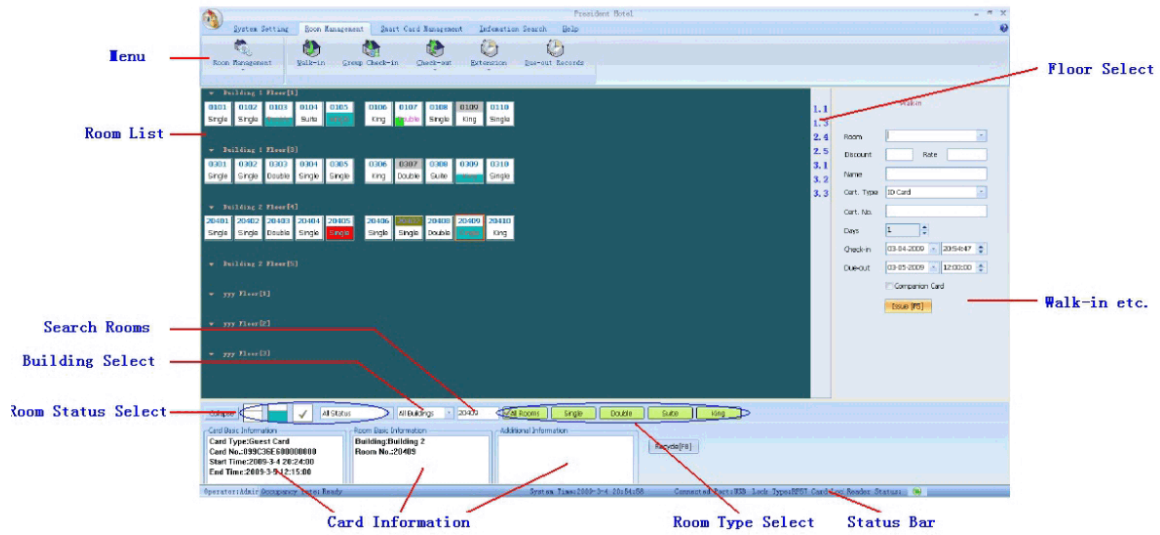

Lock Alarm

SDK

Everything is under control with our friendly interface, which helps you to bring the best service to every customer.

Equipped with Philip Mifare1 Technology, the access card has a larger storage and higher security. Not only for the door access, it can be also used for parking, restaurant, and other entertainment in the hotel

In order to meet different requirements from the hotels, SDK is available for development. Online technical support can be given by our engineers upon request.
